---

## **PROFESSIONAL SUMMARY**

Highly motivated manager with twenty years of experience in owning and running a construction management company. Basic responsibilities include marketing services, meeting with clients, estimating projects, and operating equipment. Managerial responsibilities include scheduling and budgeting jobs as well as directing jobsite and office staff. At its peak, the crew and office staff had twenty seven total employees.

---

## **PROFESSIONAL EXPERIENCE**

### **Kett-Way Trailer Farm Trailer Foreman**

**1998 - 2003  
Elizabeth, PA**

During my time at Kett-Way, I supervised trailer build outs. The trailers were customized depending on client needs. Many became hair and make-up trailers for movie sets. These trailers could contain HVAC, plumbing, and electrical, so coordination between workers was essential in such a tight space.

### **American Works Corporation Owner**

**2004 - Present  
Clairton, PA**

By combining my various trade experience with the supervisor experience I gained from Kett-Way, I was able to successfully start my own company in 2004. At the time, the focus was on small residential jobs that did not need much of a crew. As I learned more about management and running a business, the company and staff grew to allow for larger jobs including:

- Full builds of multiple Steel Cactus locations, Tuscany Estates poolhouse, Beaver Nail Salon, and Prior's Tap and Tavern
- Remodel of multiple Boston Market locations, multiple Denny's locations, and Princess Lanes
- Select Structural demolition at the Century Building, the Cultural Trust Building, the Commonwealth Building, and the Maginn Building

### **All Trade Construction Director of Operations**

**2023 - 2025  
Elizabeth, PA**

At All Trade, my role was geared towards my abilities in the office and in the field. My day to day ranged from bidding and estimating, to running crews on site. Jobs included:

- Mt. Lebanon streetscape in 2023
- Bethel Park pickle ball courts and lighting in 2024
- CCA Monongahela structural demolition in 2024
- Alderdice High School steam boiler retrofit in 2025
- Clairton Community Center ADA bathrooms and HVAC in 2025
- Clairton Stadium Sports Lighting in 2025

### **Pittsburgh NFT Group Founder**

**2022 - 2024  
Pittsburgh, PA**

The Pittsburgh NFT Group was originally founded with the goal of creating digital immortality by using NFT's on the ethereum blockchain to store personal data indefinitely. Overall, this project has been a fantastic learning experience in the fields of technology and digital marketing. My main responsibilities were ensuring all team members were informed and on schedule, as well as marketing on social media.

### **TRADE EXPERIENCE**

- Cabinet making
  - Sand and soda blasting
  - Interior painting
  - Sign making
  - Electrical Apprentice
  - Carpentry case and framing
